Introduction

Circular 14: Textbooks, 1992

The 1992 edition of *Circular 14: Textbooks* lists *new* textbooks approved by the Minister of Education for use in Ontario schools. School boards and publishers and distributors should refer to *Circular 14, 1991* and its supplement *Circular 14A, 1991* for general information as well as the list of previously-approved textbooks, except for Intermediate and Senior Division textbooks for technological education.

The restructuring of education with respect to learning programs, which was initiated in 1989, continues to be the top priority of the Ministry of Education. With the exception of technological education, which is described below, it is too early to predict specific implications of the restructuring with regard to learning materials. Hence the approved textbooks listed in this publication appear under the traditional division and subject headings.

Textbooks for Technological Education

As part of the restructuring of education, programs in technological education are being modified. Many school boards are already implementing the new programs, with assistance from the ministry through the Technological Education Program and Equipment Renewal Fund.

This edition of *Circular 14* reflects these changes in programs by listing textbooks for technological education, including previously-approved textbooks, for the Intermediate and Senior Divisions under six new headings: Communications Technology, Construction Technology, Design Processes in Technology, Manufacturing Technology, Services, and Transportation Technology. Textbooks that may be useful in more than one area are listed under all relevant headings. These changes do not affect the listing of textbooks for the Ontario Academic Courses.

An asterisk (*) preceding a title indicates a previously-approved textbook.

Textbooks for International Languages

The Ministry of Education curriculum guideline *International Languages, Intermediate and Senior Divisions, 1990* supersedes the following guidelines: *German S.15B(13), 1968; Italian S.15D, 1968; Italian S.15D(13), 1968; Modern Languages I. and S.15, 1961* (French, German, Italian, Russian); *Russian S.15C(13), 1968; Spanish I. and S.43, 1964*; and *Spanish S.43(13), (1968).*

Introduction

Circulaire 14 – Manuels scolaires, 1992

La version de 1992 de la *Circulaire 14 - Manuels scolaires* ne donne que la liste des *nouveaux* manuels approuvés par le ou la ministre de l'Éducation, que pourront utiliser les écoles de l'Ontario. Les conseils scolaires et les maisons d'édition et de distribution devront se reporter à la *Circulaire 14, 1991* et à son supplément, la *Circulaire 14A, 1991*, pour obtenir des renseignements généraux ou pour consulter la liste des manuels scolaires approuvés précédemment, à l'exception des manuels d'éducation technologique destinés aux cycles intermédiaire et supérieur.

La refonte du système d'éducation, notamment des programmes d'enseignement, a commencé en 1989 et continue d'être l'une des grandes priorités du ministère de l'Éducation. Sauf dans le cas de l'éducation technologique, dont il est question ci-après, il est trop tôt pour prédire l'incidence précise qu'aura la refonte sur le matériel didactique. Par conséquent, les manuels scolaires agréés figurent dans la présente circulaire sous leurs rubriques cycle et matière traditionnelles.

Manuels scolaires pour l'éducation technologique

Dans le cadre de la refonte de l'éducation, les programmes d'éducation technologique font l'objet de modifications. Beaucoup de conseils scolaires ont déjà amorcé la mise en oeuvre des nouveaux programmes avec l'aide du ministère, qui a établi à cette fin le Fonds pour le renouvellement de l'équipement et des programmes – Études technologiques.

La présente édition de la *Circulaire 14* reflète ces changements en présentant les manuels d'éducation technologique destinés aux cycles intermédiaire et supérieur, y compris les manuels approuvés antérieurement, sous six nouvelles rubriques : technologie des communications, technologie de la construction, procédés du design en technologie, technologie de la fabrication, services et technologie du transport. Les manuels qui pourraient s'avérer utiles dans plus d'un domaine sont nommés sous toutes les rubriques pertinentes. Ces changements n'ont aucun effet sur les listes de manuels scolaires pour les cours préuniversitaires de l'Ontario.

Les titres précédés d'un astérisque (*) désignent les manuels approuvés précédemment.

The new guideline provides guidance for the development of credit courses in more than sixty languages. Boards should choose the languages to be taught on the basis of student interest and local needs. School boards were required to begin implementation of the new curriculum guideline in September 1991.

Textbooks for German, Italian, Russian, and Spanish will no longer be listed in *Circular 14*. The selection and approval of textbooks for international languages will be the responsibility of each school board.

Textbooks for French As a Second Language

The ministry will continue to approve and list in *Circular 14* textbooks for French-as-a-second-language courses (core programs) and classics courses. However, textbooks for extended and immersion French courses will continue to be approved locally by schools boards, pending the publication of curriculum guidelines for these courses.

Identification Number (ISBN)

All textbooks are identified by a unique ISBN number which should be used when ordering from the publisher or distributor.

Prices

The prices for all textbooks listed in this publication are in effect for the calendar year 1992. For the previously-approved titles appearing in *Circular 14, 1991* and *Circular 14A, 1991*, school boards should request current prices from the publisher or distributor.

Manuels scolaires pour le programme des langues internationales

Le programme-cadre du ministère de l'Éducation intitulé *Langues internationales, cycles intermédiaire et supérieur (1990)* remplace et annule les programmes-cadres suivants : *German S.15B(13), 1968; Italian S.15D, 1968; Italian S.15D(13), 1968; Modern Languages I. et S.15, 1961* (français, allemand, italien, russe); *Russian S.15C(13), 1968; Spanish I. et S.43, 1964;* et *Spanish S.43(13), 1968.*

Le nouveau programme-cadre sert de guide pour l'élaboration des cours ouvrant droit à des crédits et portant sur plus de soixante langues. Les conseils scolaires devraient choisir les langues à enseigner en fonction de l'intérêt des élèves et des besoins locaux. Les conseils devaient commencer à mettre en oeuvre le nouveau programme-cadre en septembre 1991.

Les manuels scolaires pour l'enseignement de l'allemand, de l'italien, du russe et de l'espagnol ne figureront plus dans la *Circulaire 14*. Les conseils scolaires seront responsables de la sélection et de l'approbation des manuels pour le programme des langues internationales.

Manuels scolaires pour les cours de français langue seconde

Le ministère continuera à approuver, aux fins d'inclusion dans la *Circulaire 14*, les manuels scolaires pour les cours de base de français langue seconde et pour les études classiques. Cependant, les manuels pour les cours de français intensifs et pour les cours d'immersion en français seront encore approuvés par les conseils scolaires locaux, en attendant la publication de programmes-cadres régissant ces cours.

Numéro d'identification (ISBN)

Chaque titre est accompagné de son numéro ISBN (numéro normalisé international du livre), que les conseils doivent utiliser quand ils passent une commande auprès de la maison d'édition ou de distribution.

Prix

Les prix des manuels scolaires énumérés dans la présente circulaire sont ceux en vigueur pour l'année civile 1992. Les conseils scolaires devront s'adresser à la maison d'édition ou de distribution pour connaître les prix des manuels approuvés antérieurement, qui figurent dans la *Circulaire 14, 1991* et la *Circulaire 14A, 1991*.
